

Ysgol Gymunedol Llangatwg Llangatwg Community School

Main Road | Cadoxton | Neath | SA10 8DB

15th December 2017

Dear Parent / Carer

You might be aware that a small rodent got in to the canteen seating area yesterday during break. The school acted promptly in dealing with this incident and the canteen seating area was closed immediately and serving of food transferred to the Youth wing. The serving of food from the Youth Wing will continue today as a precautionary measure, despite us yesterday gaining a full clean bill of health from the Food Standards Agency, who were called immediately.

Most parents will be aware that rodents of all sorts are not uncommon and that they will exist in all areas, whether they be residential, commercial, rural or urban. As a school we take health and wellbeing as a top priority and our catering hygiene standards have been awarded the 5 star food standards health rating, the highest award available.

I am utterly confident that the school dealt with the matter well and I'd like to thank all staff, parents and pupils who have given overwhelming support in the way in which this issue was dealt with.

Unfortunately, a small minority of exaggeration and mistruth has been placed on social media, but I'm sure that most will see this for what it is.

Kindest Regards

Alan L. Rowlands
