

*Tata Steel are holding a series of Apprentice Open evenings across our South Wales sites over January and February, to promote our apprentice opportunities for 2016. These Open evenings are an opportunity for any Year 11, 12 & 13 students interested in an apprenticeship at Tata Steel to attend and find out more information about the apprenticeships that are available.*

*Our first open evening will be at our Port Talbot site on **Thursday 21st January 2016**. The Open evening will have two sessions, the first session will be at 4.30pm till 6pm and the second session will be 6.30 - 8pm. At the open evening we will have managers and current apprentices from each area we are looking to recruit into, available to give further information on the apprenticeship programmes. There will also be an opportunity to have a look around our Apprentice training academy, where our apprenticeships undertake a bulk of their training throughout the apprentice programme.*

*For our 2016 intake at our Port Talbot site we are looking to recruit into the following areas:*

- *Electrical Engineering*
- *Mechanical Engineering*
- *Fabrication & Welding*
- *Manufacturing*
- *Laboratories*
- *Higher Technical*
- *Finance*

*If you would like to attend or know anyone that would be interested in attending our Apprentice Open evening, please contact the recruitment team at [Apprentice.Recruitment.UK@tatasteel.com](mailto:Apprentice.Recruitment.UK@tatasteel.com). Places will be booked on a first come first served basis, with availability for one guest per attendee.*

*Applications will open online at [www.tatasteel.com/en/careers/apprentices/apprentices](http://www.tatasteel.com/en/careers/apprentices/apprentices) on Monday 25th January 2016.*

*Applicants must have or be expected to achieve 5 GCSE's at Grade C or above (including Maths, English Language and Science).*
